Riverside Early Assessments of Learning™

by Bruce A. Bracken, Ph.D.

The REAL Assessment for Early Childhood

Authentic Assessment for Early Childhood. REAL Assessment for Real Children. The **Riverside Early Assessments of Learning™ (REAL™)** is a comprehensive authentic assessment suite designed to ensure school readiness, as well as provide reliable information for effective planning and targeted daily instruction. It takes learning assessment to a new level, charting developmental and academic growth for children with special needs from birth to age 7 Years, 11 Months.

For more information, please contact your local Account Executive or visit hnhco.com

REAL, a research-based assessment tool, was developed by Dr. Bruce Bracken, an expert in the field of Early Childhood assessment. This platform includes:

- Simple and straightforward data administration that allows you to create individualized instructional plans and chart a child's progress on key developmental and academic indicators to ensure growth or consider intervention.
- Flexible and easy collection of observations, notes, and pictures to build a portfolio of a child's accomplishments.
- A dynamic online platform that provides results instantly, giving teachers and parents a way to see how a child is functioning throughout the year, and dynamic reports to view development at the individual, classroom, building, district/agency, and state levels.
- Authentic assessment through careful observation as children play, benefiting even the youngest of learners.

Three Versions to Support Different Needs

- Head Start®
- IDEA
- Kindergarten Readiness
